Changes in Practice Concerning Letters of Protest

After April 1, 1995, Letters of Protest filed prior to the publication of a mark for opposition will be granted only if there is sufficient evidence in the Letter of Protest to establish a *prima facie* case which supports a refusal of registration. In such a case, publication of the mark for opposition, without consideration of the issue and evidence presented in the Letter of Protest, might result in a clear error by the Office. Further, after April 1, 1995, FOIA requests for copies of letters of protest should be directed to the Office of the Assistant Commissioner for Trademarks, rather than to the Solicitor's Office.

Letter of Protest practice will change as follows: Under current practice, when a Letter of Protest is filed prior to the publication of a mark, the evidence in the letter is forwarded to the Examining Attorney whenever such evidence can properly be considered by an examining attorney during *ex parte*

examination and the evidence supports any reasonable ground for refusal.

Under the revised practice, when a Letter of Protest is filed prior to the publication of a mark, the evidence in the letter will be forwarded to the Examining Attorney only if there is sufficient evidence in the Letter of Protest to establish a *prima facie* case which supports a refusal of registration such that publication of the mark for opposition, without consideration of the issue and evidence presented in the Letter of Protest, might result in a clear error by the Office.

The standard for the granting of a Letter of Protest filed or considered after publication of the mark in the *Official Gazette* is not changing. The standard is whether publication of the mark constituted clear error and whether the Letter of Protest was filed within thirty days of the publication of the mark. *In re Pohn*, 3 USPQ2d 1700 (Comm'r Pats. 1987), and *In re BPJ Enterprises Ltd.*, 7 USPQ2d 1375 (Comm'r Pats. 1988).

Because the Letter of Protest procedure, which permits a third party to introduce evidence during the *ex parte* examination of an application, is not mandated by statute or rule, the Office wants to clearly define the standards used for granting Letters of Protest and harmonize the standards used for granting these letters before and after publication of the mark. The new standard for prepublication Letters of Protest will discourage the filing of Letters of Protest which do not present sufficient evidence to support a *prima facie* case for refusal to register. As a result, fewer applications will be taken out of the normal order of processing for consideration of evidence in a Letter of Protest.

Requests for Copies of Letters of Protest

At the present time, copies of documents relating to Letters of Protest are requested pursuant to the Freedom of Information Act (FOIA) from the Solicitor's Office of the Patent and Trademark Office. After April 1, 1995, any party making a FOIA request for a complete copy of the Letter of Protest should file that request directly with the Office of the Assistant Commissioner for Trademarks by mailing it to 2900 Crystal Drive, Arlington, Va. 22202-3513 or by faxing it to (703) 308-7220. Such a request should be directed to the attention of the Administrator for Classification and Practice. Upon review of the Letter of Protest material, the Administator will usually forward a copy of the Letter of Protest and its attachment to the requester. Only in cases where the Letter of Protest or its attachments contain material that would potentially be expected from disclosure under the Freedom of Information Act will the Administrator not forward the requested material. If, in the opinion of the Administrator, any part of the Letter of Protest materials should be excepted from disclosure under FOIA, the matter will be forwarded to the Office of the Solicitor for further review.

Reference Collections of U.S. Patents and Trademarks
Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information in various formats from the U.S. Patent and Trademark Office. Many PTDLs have on file all full-text patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PTDLs have both the patent and trademark sections of the *Official Gazette of the U.S. Patent and Trademark Office.* The full-text utility and design patents are distributed numerically on 16 mm microfilm, and plant patents on color microfiche. Patent and trademark search systems on CD-ROM (Compact Disc-Read Only) format are available at all PTDLs to increase utilization of and enhance access to the information found in patents and trademarks. It is through the CD-ROM systems that preliminary patent and trademark searches can be conducted through the numerically arranged collections.

All information is available for use by the public free of charge.

In addition, each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials. Facilities for making paper copies of patent and trademark information are generally provided for a fee.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particular library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvenience.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date.
